

1. Ministry of Education & Skill Development

Theme: Learning for All

Honourable Chair and respected delegates,

In Telangana @100, I dream of an education system where **every child learns without fear, pressure or inequality.**

Every village should have smart classrooms, libraries full of storybooks, and teachers trained in creative teaching.

Learning must not stop at textbooks — children should build robots, grow gardens, create art, solve real problems and learn life skills.

Let every student, whether in a small village or a big city, get the **same quality of education.** A strong Telangana begins with strong classrooms.

Let us build schools where learning is happy, equal and full of possibilities.

Thank you.

2. Ministry of Health, Nutrition & Well-being

Theme: Healthy Telangana = Strong Telangana

Respected Chairperson,

For Telangana @100, I imagine a state where health is **not a luxury**, but a basic right for every person.

Every child should get a regular health check-up, access to clean drinking water, nutritious mid-day meals and safe playgrounds.

Mental health must also be cared for — children should have counsellors, support groups and stress-free spaces.

A healthy child becomes a confident student, and a confident student becomes a strong citizen.

Let us build a Telangana where **no one falls sick because they are poor**, and where healthy habits begin early.

Thank you.

3. Ministry of Technology, Innovation & Digital Growth

Theme: Building a Smart Future

Honourable members,

By the time Telangana turns 100, technology will touch every corner of life — and we must lead this change responsibly.

Imagine digital classrooms with virtual labs, AI-based farming tools for farmers, smart hospitals that save lives faster, and Innovation Clubs in every school where children design new ideas.

But technology must be **inclusive** — it should help everyone, not just a few.

We want a Telangana where even the smallest village is connected, informed and digitally empowered.

Let us become creators of technology, not just users.

Thank you.

4. Ministry of Environment & Sustainable Development

Theme: Protecting Our Planet

Honourable Chair,

A truly successful Telangana @100 is one that is **green, clean and sustainable**.

I dream of cities with more trees than concrete, villages with pure water, and schools powered by solar energy.

Students should lead plantation drives, recycling campaigns, and awareness programs to fight pollution and climate change.

Every birthday, plant a tree.

Every day, avoid plastic.

Every moment, respect nature.

When Telangana turns 100, let the world say:

“This is the state that protected its planet.”

Thank you.

5. Ministry of Culture, Heritage & Social Harmony

Theme: Pride in Roots, Unity for the Future

Respected delegates,

Telangana is rich in culture — from Bathukamma and Bonalu to our art, dance, music and

languages.

As we step towards Telangana @100, we must carry our traditions proudly into the future.

I dream of cultural clubs in every school, heritage walks for students, and festivals celebrated in eco-friendly, inclusive ways.

Let our modern growth never disconnect us from our roots.

A great Telangana is one where **all communities live with respect, unity and joy.**

Let culture be our strength and harmony be our identity.

Thank you.
